A. Data Recovery Module - Retrieve data deleted from your iOS device, including contacts, messages, photos, videos, music and voice memos, and recover formatted data. B. Backups Module - Manage and export backups to iTunes for iTunes backup or iCloud for iCloud backup. C. System Recovery Module - Reset your iOS device to factory settings. D. Erase Module - Erase all content stored on your iOS device (photos, text messages, music, videos and voice memos). iOS 9 is the big daddy of the App Store. But what makes it so great? Let's count the ways. The simple answer is that iOS 9 brings

---

you everything you need to make the most of your iOS device. For the best possible experience with iOS, it's a must. Not only is the native Mail app just plain cool, but it's also one of the best built-in apps you'll ever use. You can manage contacts, send and receive emails, view and reply to messages in threads, and access the App Store with a single tap on Mail. And of course, it's the gorgeous graphics engine behind iOS 9 that lets you do just about anything you can dream of in gorgeous 3D graphics. The best way to get your hands on iOS 9 is to get your hands on a device with iOS 9 installed. But for those of you still using iOS 8 or earlier, there are a few cool things you can do to get the best of iOS 9. Start by

---

launching the Settings app. You'll see a new list of key services on the left, followed by the option to Set up Update to New iPhone, iPad or iPod Touch. Tap that, and you'll be prompted to update your device to iOS 9. If you don't want to bother with that, you can head to Settings > General > Software Update to download the latest software update straight to your device. iOS 9 also comes with a new augmented reality platform called ARKit. It adds a new set of augmented reality tools to iOS, including a new 3D graphics engine. This lets you do things like take pictures of 3D objects using your device camera, or apply custom overlays to objects. Now, it's not enough to just update your device. In

---

order to make the most of all these new features, it's recommended that you update your apps to the latest version. You can find the latest version of each app right in the App Store. But if you're
