[Paid version] - This is the paid version of the Tool. This Tool will allow you to change the size of Album Art. As you can change the size you can create different sizes of the same image. By using this you can set different dimensions for your Album Art. [New Features] - You can choose a small size albumart if you want to create a smaller albumart that can be read easily on a smaller screen. [General] - You can choose a different folder for you image files. [Troubleshooting] - You can see if your image files are in the right path and use the correct size. [Auto-Download] - Auto Download: You can choose if you want to update the albumart when you are downloading a new song or not. [Size Limits] - The file size that can be used for an Album Art is limited to a maximum of 4mb. [User Editable] - You can edit the image files with this tool. But this only works with the paid version. [More Info] - You can learn more about this tool in the Readme.txt file. For each selected song add another row with a different setting (size and image file) and set the cell ColorSchemeColors.Style to 0, which will prevent these settings to change for other songs.
